Hi everyone. I have reviewed Dr. Falconer's report in detail, and I fully approve of its findings. I found the discussion on the requirement for a buffer to be very interesting. Just to prove that I actually read it (Alex!) in item 122 second half you need the preposition "to" as in "somebody would have looked "to" Larson". I'm so sorry but I enjoy finding edits! All the best, and again you have my full approval to sign my document. I will be online again in about eight or so hours, and I wish you all the best, Don
