Alexandria, VA 22313-1450

REQUEST FOR CERTIFICATE OF CORRECTION

Pursuant to 35 U.S.C. § 255 and 37 C.F.R. § 1.323, Patentee respectfully requests the issuance of a Certificate of Correction for U.S. Patent No. 12,290,598, issued on May 6, 2025. A completed Certificate of Correction form PTO/SB/44 accompanies this request.

Upon reviewing the above-identified patent, Patentee noted the following inadvertent errors which should be corrected.

In the Claims:

At column 18, claim 1, line 61, “4-48 N” should be --8-48 N--

At column 20, claim 23, line 15, “4-48 N” should be --8-48 N--

At column 20, claim 25, line 21, “4-48 N” should be --8-48 N--

Patentee inadvertently introduced the error in an amendment to the claims filed on July 23, 2024.

Patentee submits that the mistake is of a clerical or typographical nature, or of a minor character, and occurred in good faith. As described in the response dated July 23, 2024, Applicant sought to overcome a statutory double patenting rejection by amending the claims to recite hardness and friability values for the claimed orally disintegrating tablets and cited Example 1 for support for the amendment. The only hardness value disclosed in Example 1 is “8-48 N” (see Table at paragraph [0092]). Because Applicant cited to Example

1, it is clear from the file history that Applicant intended to amend the claim to recite a hardness value of 8-48 N. However, Applicant inadvertently introduced 4-48 N into pending claims 1, 33, and 35. Patentee requests correction of the specified errors.

This correction is consistent with the rules set forth in MPEP § 1481. Specifically, MPEP § 1481, states a clerical or typographical mistake that can be corrected under 35 U.S.C. § 255 is typically “manifest from the contents of the file of the patent sought to be corrected.”¹ Here, because Applicant cited to Example 1 in the response dated July 23, 2024, it is clear from the file that Applicant intended to introduce a hardness range of 8-48 N, which is clearly and unambiguously disclosed in the Table at paragraph [0092] of the as-filed application. This range, in fact, is the only one disclosed. Thus, the mistake is obvious and immediately apparent from the file and the as-filed application.

Moreover, as further required under 35 U.S.C. § 255, Patentee submits that the requested corrections do not involve changes that would constitute new matter or require reexamination because the corrected range of 8-48 N is expressly disclosed in the Table at paragraph [0092] and narrows the scope of the issued claims. The hardness values were never at issue during prosecution and Patentee has several related patents with broader claims without this feature (e.g., 8,771,729, 9,486,407, 10,632,069, 11,246,828, and 11,266,598). Thus, the requested correction will not require reexamination.

In view of the foregoing, issuance of a Certificate of Correction correcting the errors is respectfully requested.

¹ See: *In re Arnott*, 19 USPQ2d 1049, 1053 (Comm’r Pat. 1991).

Patent No.: 12,290,598

Docket No.: ELLO-119/08US 342083-2017

Please charge our Deposit Account No. 50-1283 in the amount of \$172.00 covering the fee set forth in 37 C.F.R. § 1.20(a). The Director is hereby authorized to charge any deficiency in the fees filed, asserted to be filed or which should have been filed herewith to our Deposit Account No. 50-1283, under Order No. ELLO-119/08US 342083-2017.

Dated: October 14, 2025

Respectfully submitted,

PATENT NO. : 12,290,598
APPLICATION NO. : 17/569,047
ISSUE DATE : May 6, 2025
INVENTOR(S) : Stephen PERRETT et al.

It is certified that an error appears or errors appear in the above-identified patent and that said Letters Patent is hereby corrected as shown below:

At column 18, claim 1, line 61, "4-48 N" should be --8-48 N--

At column 20, claim 23, line 15, "4-48 N" should be --8-48 N--

At column 20, claim 25, line 21, "4-48 N" should be --8-48 N--
