About us

Research.com is a leading educational platform that helps students find the best schools, academic opportunities, and career paths. We provide a wide range of comprehensive, well-researched, data-driven guides and resources prepared by a team of experts that work together to answer your questions and help you make informed decisions. Our platform also features a popular ranking of US colleges and universities. It offers a detailed overview of each school and allows for a deep school discovery process based on a wide range of metrics. Research.com offers a wide range of data-driven rankings of US colleges and universities that will help you identify the best school to fit your educational needs and preferences. Our rankings will provide you with a comprehensive overview of each school, along with crucial data on enrollment, tuition, acceptance rates and requirements, graduation rates, financial aid, faculty and facility information, and salary projections for graduates. The Research.com team is a diverse group of over 60 professionals, including data analysts, researchers, journalists,

editors, education specialists, and IT developers. We're a remote, multicultural team spread across three continents, bound together by a passion for data-driven research and education. We are also proud of our success in creating unique rankings of colleges and universities that focus on key factors related to affordability of education. This topic is especially important to us in light of the current economic climate, as we believe that quality education should be available to everyone.
