IMPORTANT SAFETY INSTRUCTIONS

WARNING - When using electric appliances, basic precautions should always be followed, including the following:
Read all the instructions before using the appliance.
To reduce the risk of injury, close supervision is necessary when an appliance is used near children.
Do not contact moving parts.
Only use attachments recommended or sold by the manufacturer.
Do not use outdoors.
To disconnect, turn all controls to the off position, then remove plug from outlet.
Do not unplug by pulling on cord. To unplug, grasp the plug, not the cord.
Unplug from outlet when not in use and before servicing or cleaning.
Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or is dropped or damaged in any manner. Return appliance to the nearest authorized service facility for examination, repair, or electrical or mechanical adjustment.
To reduce the risk of electrical shock, do not put the product in water or other liquid. Do not place or store appliance where it can fall or be pulled into a tub or sink.

Safety Instructions

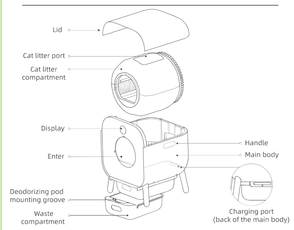

- Install and use the product in strict accordance with the Instruction for Use.
- Use the product for cats over six months old and weighing 1.5-8kg only.
- Don't use the product for pregnant and lactating cats, so as to avoid the danger of giving birth to kittens or leaving them in the cat litter box.
- Handle and place the product gently as there is a built-in weighing sensor. Calibrate the product by using the weighing calibration function on the Setting page of the App in the case of inaccurate weighing after handling.
- Place the product on a clean and flat hard ground and don't place any article weighing over 18kg on the lid.
- Remove the preventive expandable polyethylene between the lid and cat litter compartment before the product is powered on.
- Use the product in a cool and dry indoor environment away from fire source and direct sunlight.
- Don't place other articles under or around the cat litter box.
- Don't place other articles except cat litter mat within 25cm in front of the cat litter box.
- Contact the after-sales service personnel immediately when the power cord is bitten and damaged as there is still the risk of electric leakage even though the product operates at low voltage.
- Don't disassemble and repair the product by yourself, and contact the after-sales service personnel immediately in the case of any question in use.

Package Contents

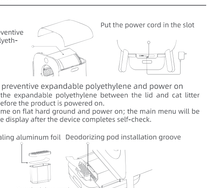

Product Overview

Read this manual carefully before use, and retain it for future reference.

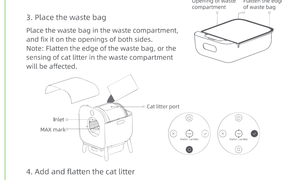

How to Install

1. Remove the preventive expandable polyethylene and power on
Note: Remove the expandable polyethylene between the lid and cat litter compartment before the product is powered on.
Put the mainframe on flat hard ground and power on; the main menu will be displayed on the display after the device completes self-check.

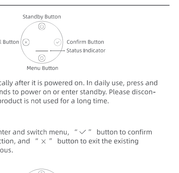

2. Install deodorizing pod
① Open the lid of deodorizing pod, tear off the sealing aluminum foil, and cover tightly the lid.
② Open the lid of deodorizing pod installation groove, install the deodorizing pod, and cover tightly the lid, as shown in the figure.

4. Add and flatten the cat litter
Add the cat litter via cat litter port and flatten: Remove the upper lid of the mainframe, add cat litter from the cat litter port and cover the upper lid (the product will flatten the cat litter automatically).
Add the cat litter via inlet and flatten: Add the cat litter via inlet, touch the "⬡" button, and choose "Flatten the cat litter", tap the "✓" button (the product will flatten the cat litter automatically after buzzing once.

Notes: Add cat litter immediately when the display and the App remind that the cat litter is insufficient or has run out.
Ensure that the cat litter doesn't exceed the MAX mark in the cat litter compartment.
It is recommended to use deodorant natural cat litter, or bentonite bonded cat litter, tofu cat litter, mixed cat litter and other types of clumping cat litter with the diameter of less than 2mm.

How to Use

On/Standby:
The device starts automatically after it is powered on. In daily use, press and hold "⏻" for three seconds to power on or enter standby. Please disconnect the power cord if the product is not used for a long time.

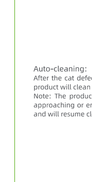

Menu functions:
Tap the "⏻" button to enter and switch menu, "✓" button to confirm to execute the selected function, and "↩" button to exit the existing menu and back to the previous.

Enable/Disable child lock:
The child lock function can be enabled/ disabled in the App. After the child lock function is enabled, the display will be locked and the buttons cannot be used after locking if "↑" and "↵" buttons on the display are pressed simultaneously for two seconds or there is no operation within 1 minute.

Reset Wi-Fi:
Tap the "⏻" button, choose "⚙", and tap the "✓" button,the Wi-Fi is reset when "📶" flashes.
Disable Wi-Fi:
Tap the "⏻" button, choose "⚙", tap and hold the "✓" button for five seconds, and release when the product buzzes, the Wi-Fi is disabled if the screen displays "📶", if the Wi-Fi is disabled, reset again to enable the Wi-Fi.

Auto-cleaning:
After the cat defecates and leaves, the display starts countdown and the product will clean automatically after countdown.
Note: The product will immediately suspend cleaning if it detects a cat approaching or entering the cat litter compartment during auto-cleaning, and will resume cleaning after the cat leaves for a period of time.

Manual cleaning:
After "Cleaning" in the menu is chosen, the product buzzes once and starts cleaning.

Clean the waste compartment and replace the waste bag:
Please clean the waste compartment and replace the waste bag immediately after the display and the App remind that the bag is full, and the display and the App remind that the waste compartment is full.
Note: For example, when it is used by one cat, it is recommended to replace the waste bag every 14 days, or every seven days in hot weather to avoid breeding mosquitoes.

Empty cat litter::
After "Empty cat litter" in the menu is chosen, the product will buzz once and automatically pour the cat litter in the cat litter compartment into the waste compartment.

Menu functions

Clean:
Choose to clean the cat litter manually

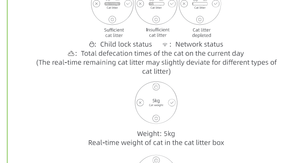

Reset Wi-Fi
Disable Wi-Fi

Empty cat litter / Pour cat litter:
Pour the cat litter compartment into the waste compartment

Restoring factory settings:
Clear all settings

please check if it's properly installed

Connect with the PAWBBY App

App download and device pairing
Scan the QR code to download and install PAWBBY App. Users who have installed the PAWBBY App will be directed to the connection setup page . Or search "PAWBBY" in the app store to download and install PAWBBY App.

App functions
Remote cleaning, abnormal warning, viewing cat defecation date, setting DND mode at night, electronic user manual, and FAQ.
Notes: Due to upgrades of the PAWBBY App, actual operations may be slightly different from what are mentioned above, please operate according to the instructions for the current PAWBBY App.

Daily Care & Maintenance

- Product cleaning

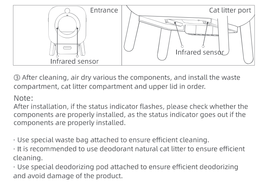

Note: It is recommended to clean the product once a month to ensure cleanness and health.

① Empty cat litter as previously stated.

② Power off the product and disconnect the power supply, remove the upper lid, cat litter compartment and waste compartment successively, and clean all the components.
Note:
Wash the upper lid, cat litter compartment and waste compartment with water.
To ensure accurate sensing at entrance and waste compartment, please wipe the infrared sensors at the entrance and cat litter port regularly.

Cautions:
Don't wash the main body with water, as there are electrical elements, wipe the main body with neutral detergent by wet duster cloth, and don't use any detergent that contains alcohol and chemical reagent.

① After cleaning, air-dry various the components, and install the waste compartment, cat litter compartment and upper lid in order.
Note:
After installation, if the status indicator flashes, please check whether the components are properly installed, as the status indicator goes out if the components are properly installed.

- Use special waste bag attached to ensure efficient cleaning.
- It is recommended to use deodorant natural Cat litter to ensure efficient cleaning.
- Use special deodorizing pod attached to ensure efficient deodorizing and avoid damage of the product.

Cautions about deodorizing pod

- Don't eat the beads in the deodorizing pod. Seek medical service immediately if the beads are eaten by mistake.
- Please use and store the deodorizing pod in places not accessible by children or pets.
- Don't use the deodorizing pod for any other purpose.
- Wipe any beads spattered from the deodorizing pod immediately.
- Don't pour the beads in the deodorizing pod into the sewer, otherwise, the sewer may be blocked.
- Note that the beads in the deodorizing pod may change into yellow if they are placed there for a long time, which is normal and is not a quality problem.
- Wash your skin thoroughly if it is exposed to the beads.
- Thaw the beads in the environment over 0℃ before use as the beads may be frozen when the temperature is lower than 0℃.

Specifications

Name	PAWBBY Smart Self-cleaning Cat Litter Box
Model	MG-CLB001-US
Rated Input	12V ⎓ 1.5A
Rated Power	18W
Net Weight	13.5kg
Power cord length	1.8m
Dimensions	496 x 500 x 640mm
Operating Temperature	4℃ to 40℃
Operating Humidity	30%~70% RH
Capacity of waste compartment	8.6L

Power Adapter

Model Identifier	YJSSY4ZD1-120100U	Output Current	1.0 A
Input Voltage	100-240 V AC	Output Power	12 W
Input AC Frequency	50-60 Hz	Output Voltage	12.0V

Note:

1. It is recommended to retain the packaging box for 30 days after signing for reception, as the packaging box will be used during transport to ensure transport safety.
2. Illustrations of product, accessories, and user interface in the user manual are for reference only. The actual product and its functions may vary due to product enhancements.

Radio Frequency and Radio Transmission Power

RF Specification	Working Frequency	Maximum Output Power
2.4-G Wi-Fi	2403-2483.5 MHz	19.22 dBm
Bluetooth	2403-2483.5 MHz	9.25 dBm

FCC Statement

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
NOTE: This equipment has been tested and found to comply with the limits for a Cass B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.

RF exposure warning

This equipment must be installed and operated in accordance with provided instructions and the antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter. End-users and installers must be provide with antenna installation instructions and transmitter operating conditions for satisfying RF exposure compliance.
